Office of Indian Energy

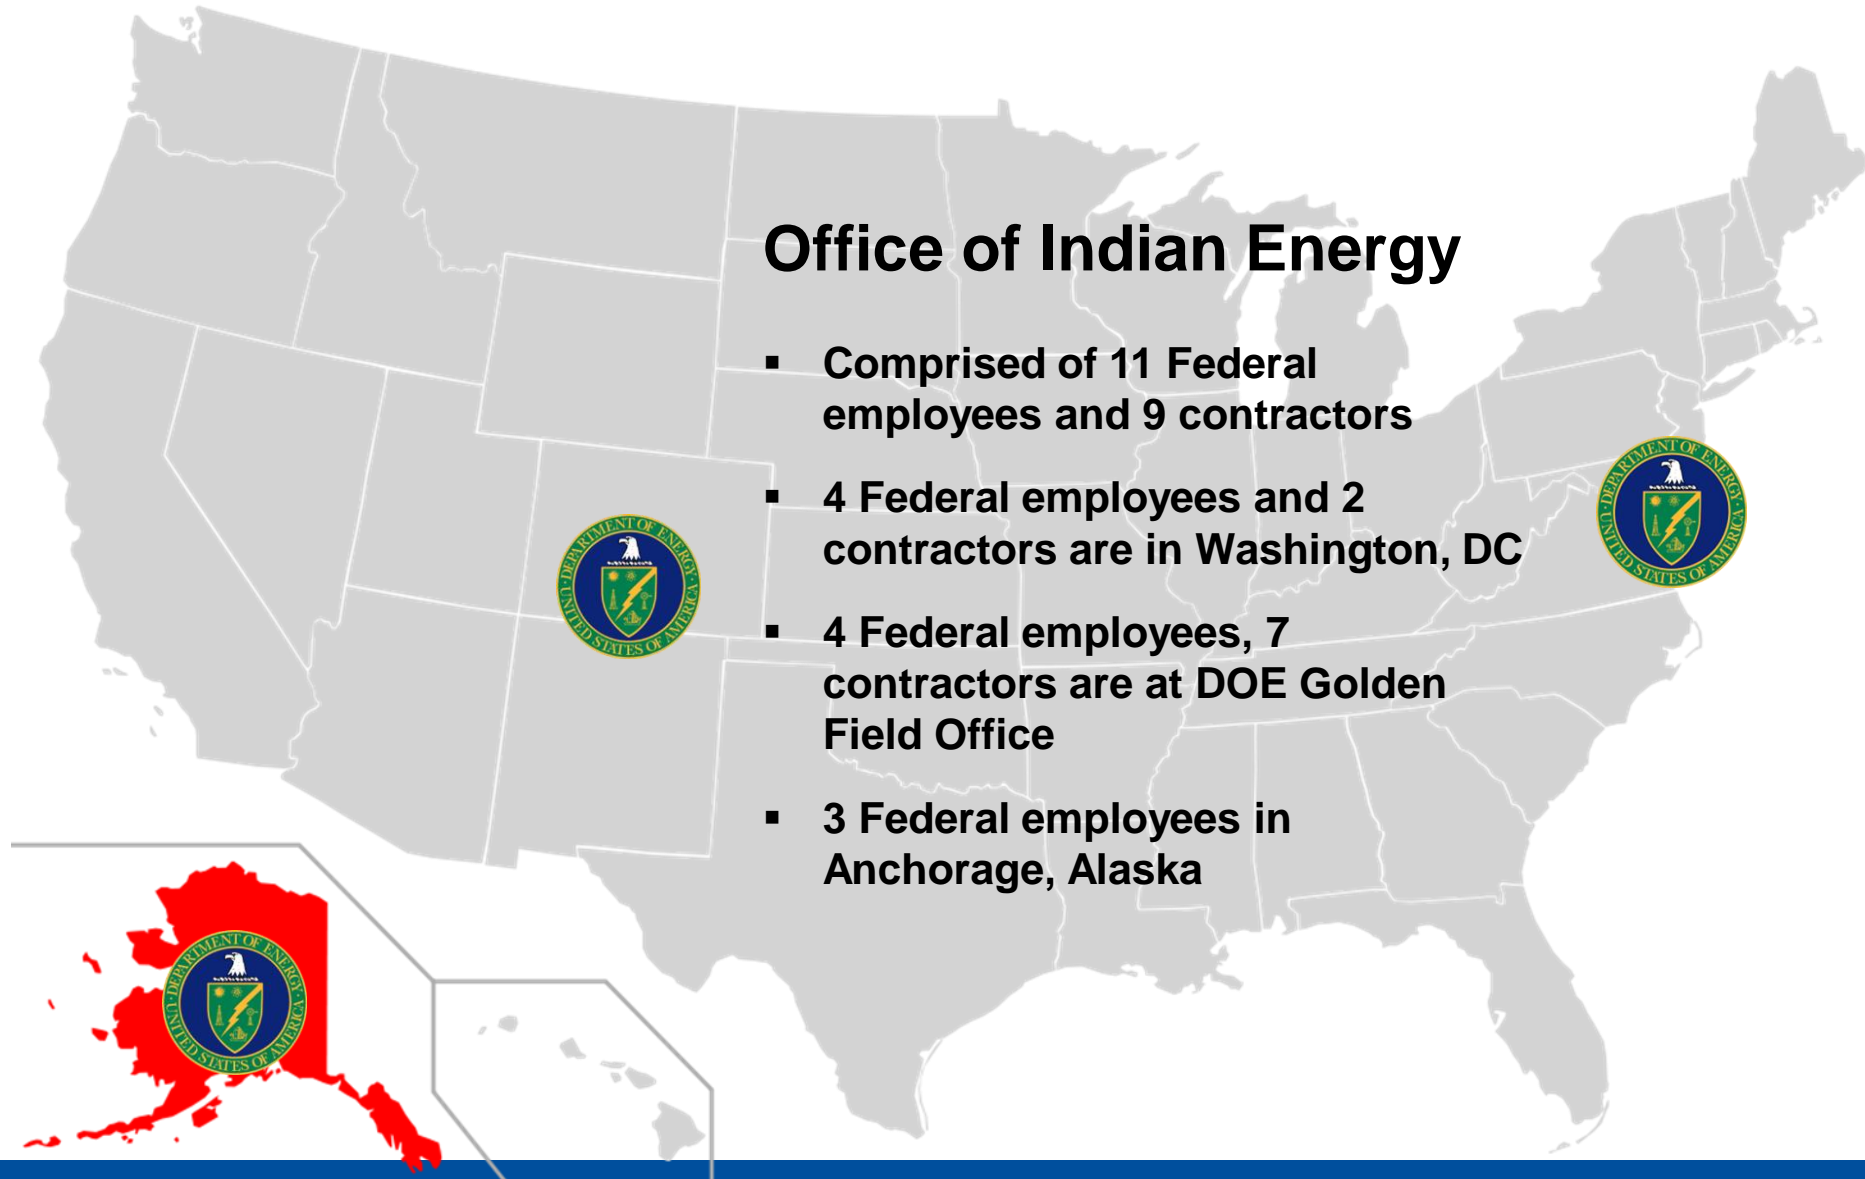

The Office of Indian Energy is charged by Congress under the Indian Tribal Energy Development and Self Determination Act of 2005 to “provide, direct, foster, coordinate, and implement energy planning, education, management, conservation, and delivery programs that –

1. **Promote** Indian tribal energy development, efficiency, and use;
2. **Reduce** or stabilize energy costs;
3. **Enhance** and strengthen Indian tribal energy and economic infrastructure relating to natural resource development and electrification; and
4. **Bring electrical power** and service to Indian land and the homes of tribal members.”

Clockwise from top right: **Seneca Nation's** (NY) 1.5 MW wind turbine, **Fort Yukon's** (AK) combined heat and powerhouse, **Coeur d'Alene Tribe's** (ID) Benewah Market energy efficiency project, **Sokaogon Chippewa Community** (WI) Housing Project, and **Chippewa Cree Tribe's** (MT) Residential Solar.

Small Distributed Team

IE Deployment Program

Financial Assistance

We facilitate tribal energy project development through financial assistance (competitively awarded grants).

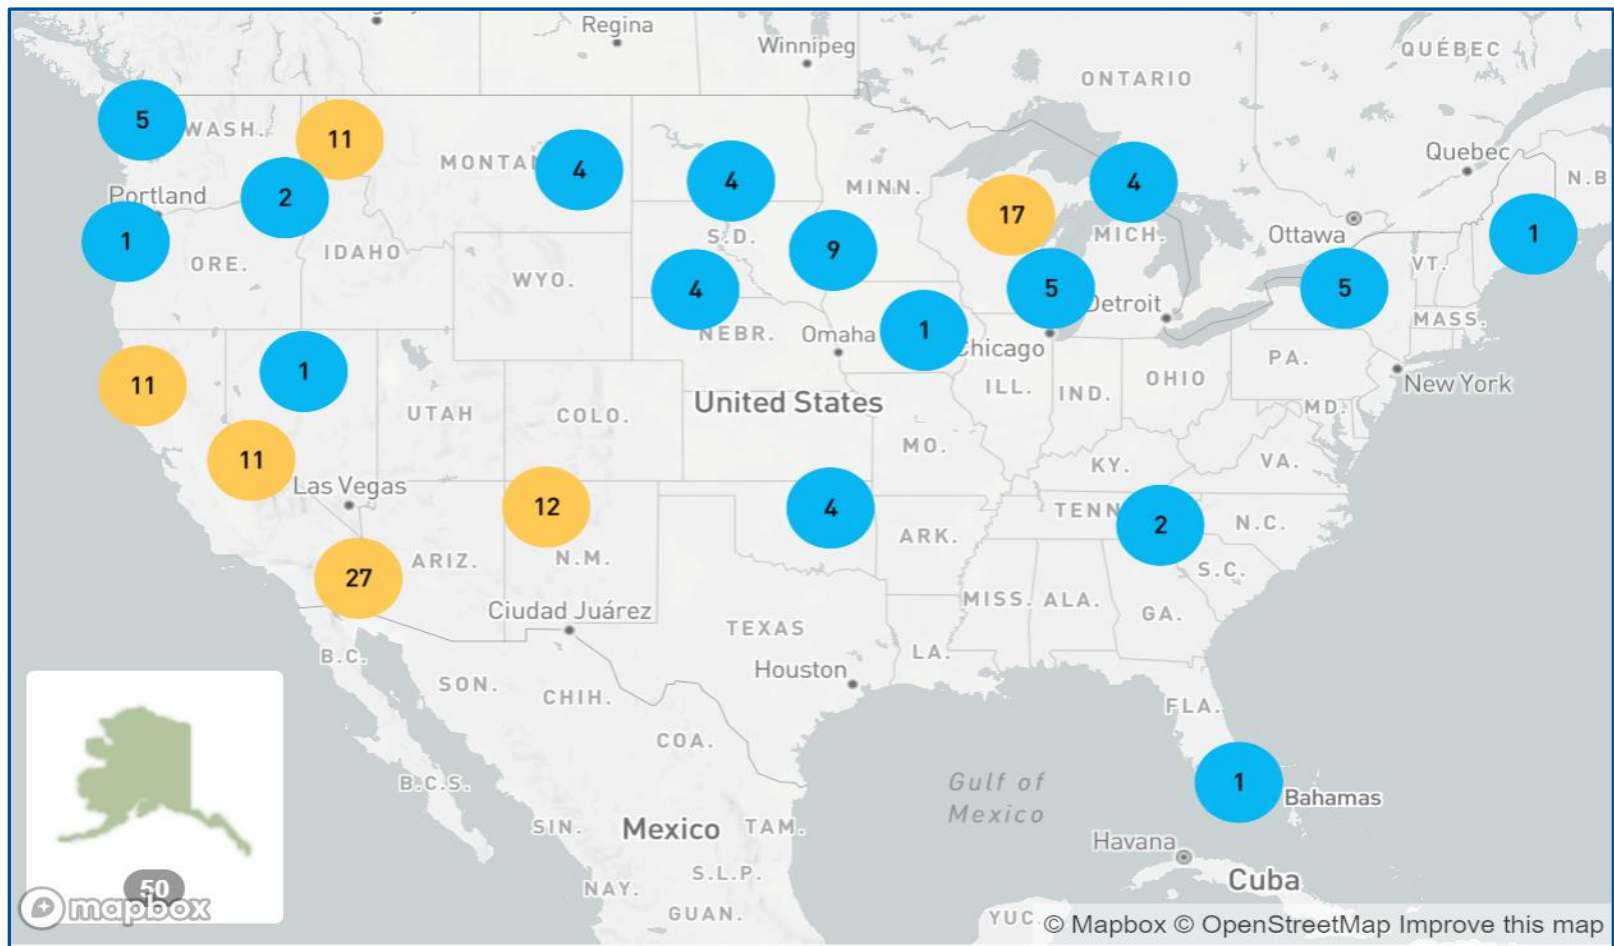

Technical Assistance

We provide federally recognized Indian tribes, including Alaska Native villages, regional and village corporations, tribal energy resource development organizations, and other tribal groups and communities, with technical assistance to advance tribal energy and infrastructure projects, at no charge.

Education and Capacity Building

Thorough regional workshops, webinars, and college student internships, we support tribal efforts to build internal capacity to develop energy projects and navigate energy markets.

Invested over \$100 million in more than 190 tribal energy projects (2010-2020)
